Raghad Al Rashdan

## INTRODUCTION

Drug Corner is an e-commerce site for selling medicines and products and delivering them to customers easily, allowing the customer to create a new account and upload his perception and you can order medicines and other health products online from the pharmacy. The Admin here is a doctor, who will receive the customers' perception and give the medicines to the delivery company then it'll deliver the order to customer location. He can add, update or delete products. In addition, he can see all users, as well as all incoming and outgoing orders from the pharmacy
